1. Terms of Reference

1.1. Overview

The GEPF manages pensions on behalf of approximately 1.3 million active members and 406 000 pensioners and their beneficiaries. As at 31 March 2015, GEPF's assets were R1.6 trillion. This document outlines the scope of work and terms of reference for the appointment of a service provider to provide Enterprise Risk Management (ERM) services to the GEPF.

1.2. Purpose

Pension fund trustees are expected to perform a critical role in the leadership and management of pension funds. As such, it is important that trustees are continuously made aware of the areas in which material risks could occur and develop internal control systems which effectively manage these risks. The Board of Trustees seeks the services of an external third party to evaluate current and emerging risks and controls of the GEPF; as well as to develop control systems that are underpinned by a best practice risk governance framework.

1.3. Background

The GEPF currently has an Enterprise Risk Management (ERM) Framework which has been approved by the Board of Trustees. The GEPF ERM Framework is based on the principles embodied and published by the Committee of Sponsoring Organisations (COSO) of the Treadway Commission, the International Guideline on Risk Management (ISO 31000) and the King Code on Governance Principles. The current framework was last reviewed in 2013/14. In conjunction with the ERM Framework, the GEPF also has an ERM Policy which was also last reviewed in 2013/14. The Board of Trustees has also approved the strategic risk profile. As explained in the section below, one of the key services required is to develop a customised GEPF risk management strategy so as to ensure that it aligns with best practice and takes into account risk management strategies utilised by key stakeholders of the Fund, namely the Government Pensions Administration Agency (GPAA) and the Public Investment Corporation (PIC).

1.4. Scope of Work

The appointed service provider is to support the GEPF Trustees in establishing an overarching approach to managing risk. More specifically, the service provider will support the internal GEPF team to:

1. Review and customise the existing ERM Framework and other risk governance documents, including a gap analysis.
2. Develop, through consultation with the GEPF, a customized risk management process, including methodology, and three-year Implementation Plan.
3. Train and consult users and stakeholders on the ERM Framework and the relevant processes, as and when required by the GEPF. This includes instilling a common culture of risk management within the Fund.
4. Implementation of the ERM Framework and Implementation Plan, including:
 - a. Identifying the risks that are relevant and material to the GEPF, including but not limited to:
 - i. Strategic Risks;
 - ii. Investment Risks;
 - iii. Liability Risks;

- iv. Operational Risks; and
- v. Reputational Risks
- b. Identifying key risk indicators that best capture the nature of each risk.
- c. Developing a comprehensive risk profile of the GEPF.
- d. Monitoring and reporting on the risk profile and emerging risks as required by the GEPF. This may include developing reports and presenting at relevant Board committees.
5. Conducting an annual review of the ERM Framework based on the latest methodologies and international best practice relevant to pension funds.
6. Transfer of knowledge and skills to the GEPF risk management role players.

1.5. Deliverables

The key deliverables and outputs expected from the service provider and the internal GEPF team are as follows:

- A revised and updated ERM Framework.
- A three-year Risk Management Implementation Plan.
- Strategic and functional risk registers, which will be used to record and monitor the relevant risks.
- Risk monitoring reports (please see Section 1.7 below for an estimated number of reports and frequency).
- A training strategy based on the ERM Framework.
- Annual risk review reports.

All documents produced must be delivered in an editable softcopy version utilising software agreed to by the GEPF.

The service provider may be required to provide support to the GEPF during any consultation process with its major stakeholders.

1.6. Duration of Appointment

The appointment of the service provider will be for a period of 3 – 5 years with the option to renew the contract in year 4 and year 5.

1.7. Fees

GEPF and the service provider will agree on the fee structure before commencement of the exercise. The agreement will consider (but may not be limited to):

- The standard fee structures for similar exercises;
- Rates for out of pocket expenses including travelling and/ or overheads;
- The service provider may be required to present and/or produce reports at least four times a year to each of the following structures: GEPF Management, the GEPF Finance and Audit Committee and the GEPF Board of Trustees.

- No other contract relating to the services of the GEPF will be entered into between the Service Provider and any third party unless such contract is approved by the GEPF.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
